More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Japan 1995 Census as part of the East View Global Census Archive® (GCA). The Japan 1995 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Japanese, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see firsthand how the data was gathered.

Note: The Japan 2015 Census (GIS Edition) is also available through GCA

CENSUS OVERVIEW

Year: 1995
Population Coverage %: 100
Geography Coverage %: 99.2
Smallest Geography Name: Chome
ADM Level: 5

Polygons at ADM: 202,303
Number of Questions: 15
Number of Answers: 357
Data Points: 72,222,171
Urban/FG: FG

Notes
- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Japan 1995 Census has 100% population coverage, over 72 million data points, and consists of:

Geodatabase
- Intuitive organization of census data
- Administrative boundary vector data at ADM 5 (Chome Level) for 202,303 census units
- Vector and aggregated tabular data at the Chome level

Shapefiles
- All vector and census data in ESRI Shapefile format

Census Guide
- Detailed descriptions for 357 census variables

Original Census Documentation and Database
- Delivered in native format
- Census questionnaires

Metadata
- Full attribute level metadata in FGDC ISO format
Below is a representative sample of census questions included in the Japan 1995 Census.

1. Demographic
   - Sex / Marital status

2. Economic
   - Activity status / Occupation / Industry / Status in employment

3. Housing
   - Occupancy status / Ownership / Rooms / Bedrooms / Useful floor space / Occupancy by one or more households / Number of occupants
