More than numbers. Census data provides unparalleled insight into the lives of individuals. In the first offering of its kind, East View presents the Burundi 2008 Census as part of the East View Global Census Archive® (GCA). The Burundi 2008 Census addresses a wide range of topics at the highest level of detail possible and offers a premier source of demographic data for academic research.

Making information available. When initially acquired, the Burundi census data is stored in a complex database structure, with attribute descriptions in French, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software as well as providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

CENSUS OVERVIEW

- **Year**: 2008
- **Population Coverage %**: 96.6
- **Geography Coverage %**: 100
- **Smallest Geography Name**: Colline
- **ADM Level**: 3
- **Polygons at ADM**: 2,889
- **Number of Questions**: 54
- **Number of Answers**: 411
- **Data Points**: 1,187,379
- **Urban/FG**: FG

Notes
- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers.
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census.
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places.

DELIVERABLES

The Burundi 2008 Census has 96.6% population coverage, over 1 million data points, and consists of:

- **Geodatabase**
  - Intuitive organization of census data
  - Administrative boundary vector data at ADM 3 (Colline Level) for 2,889 census units

- **Shapefiles**
  - All vector and census data in ESRI Shapefile format

- **Census Guide**
  - Detailed descriptions for 411 census variables

- **Original Census Documentation and Database**
  - Delivered in native format
  - Census questionnaires

- **Metadata**
  - Full attribute level metadata in FGDC ISO format
